

The Client Consent & Aftercare Checklist

The documents and steps that protect your business on every single client — the stuff nobody teaches you in school, in one simple checklist. Print it, save it, or keep it by your station.

Built for: estheticians · tattoo artists · massage therapists · lash & brow artists · nail techs · hair stylists · barbers · makeup artists · waxers · nutritionists · wellness coaches

1 Before every client

PROTECT YOURSELF BEFORE THE SERVICE STARTS

- ☐ **Signed consent form** for the specific service performed
- ☐ **Completed intake & medical history** — allergies, conditions, medications, pregnancy
- ☐ **Contraindications reviewed & cleared** before you begin
- ☐ **ID / age verification** where required (tattoo & certain services — 18+)
- ☐ **Photo release signed** if you'll use before/after images
- ☐ **Patch / spot test** where relevant — lash adhesive, tint, chemical services

2 During the session

DOCUMENT EVERYTHING — YOUR RECORD IS YOUR DEFENSE

- ☐ **Chart the service** performed (voice or written)
- ☐ **Note products, brands, colors, or settings** used
- ☐ **Record observations** — skin/tissue condition and client response
- ☐ **Log anything unusual** or any deviation from protocol

3 After the session

RETAIN THE CLIENT, PROTECT THE OUTCOME

- ☐ **Give written aftercare instructions** the client can keep
- ☐ **Take timestamped "after" photos** — and healed photos later where relevant
- ☐ **Schedule the follow-up / rebook** before they leave
- ☐ **Send a homecare or check-in reminder** a few days out

4 Your business documents

STAY COMPLIANT — DON'T GET CAUGHT LAPSED

- ☐ **Current professional license** on file
- ☐ **Active liability insurance** — valid, not expired
- ☐ **Required permits & certifications** (e.g., bloodborne pathogen for tattoo)
- ☐ **Renewal reminders set** — 90 and 30 days before anything expires

One dispute with no signed consent, or one lapsed license, can put your whole business at risk. This checklist is how you stay covered.

WANT ALL OF THIS DONE FOR YOU — AUTOMATICALLY?

SlickChart is the app that handles every line on this list.

Signed consent & intake forms stored for you. A before/after photo vault. License & insurance reminders. Voice charting. Plus a shop, affiliate links, and courses you can sell — with no cut taken. Built by an esthetician, for every solo pro.
