How to make them yours

1
In a free Canva account, click Create, then Upload, and choose this PDF.

2
Canva turns every page into an editable design.

3
Add your logo, business name and colors.

4
Download as PDF to print, or fill in on a tablet.

BEFORE YOU USE THESE

These templates are a starting point, not legal or medical advice. Licensing for shampooing, scalp massage and blow-drying varies by state and country, so check which license covers each service where you work. Head spa services are not medical: don't diagnose scalp conditions or promise hair regrowth, and refer concerns to a dermatologist. Have a local attorney review your consent forms.

Rather go paperless?

Send, sign and store every one of these forms from your phone with SlickChart.

Agreement

	Initials
My answers are true and complete. I'll tell you if my health, medications or hair services change.	
Head spa services are relaxing and cosmetic, not medical. No result, including hair regrowth, is promised.	
I'll speak up right away if I feel dizzy, numb, sore or uncomfortable, and I can stop at any time.	
Reactions to products or oils can happen, even ones I've used before. I'll report any itching or redness.	
I am 18 or older, or a parent or guardian signs for me per [your policy].	

Your privacy: your information is kept confidential, stored securely and used only to provide your services. It is never shared without your written consent unless the law requires it. Records are kept [7] years.

INFORMED CONSENT & RELEASE · HEAD SPA

Head Spa Service Consent

CLIENT NAME _____

BIRTH DATE _____ DATE _____ HEAD SPA SERVICE(S) I'M CONSENTING TO _____

WHAT IT INVOLVES
Camera scalp analysis, cleansing, massage, steam, products and warm water at the bowl or bed.

WHAT IT ISN'T
A relaxing cosmetic service, not medical care. No diagnosis, and no promise of hair regrowth.

YOUR NECK
Your neck stays supported and neutral. Tell me about neck problems or dizziness.

Possible effects

Tingling or warmth. From massage, steam, exfoliants or high frequency. Usually fades within hours.

Redness. Mild, short-lived redness of the scalp, hairline, forehead or neck.

Dryness or tightness. From cleansing or exfoliation. A gentle routine at home helps.

Product reaction. Itching, rash, hives or swelling from fragrance, essential oils, nut oils or botanicals.

Eye irritation. Water or product near the eyes. Tell me right away if anything stings.

Dizziness sitting up. Warmth and lying back can leave you lightheaded. We sit you up slowly.

Neck discomfort. From lying back at the bowl or bed. Tell me if anything feels strained.

Extra shedding. Hairs that were already loose often rinse out at the wash. This is normal.

Heavy or oily hair. Oils and masks can leave hair heavier for a day until your next wash.

Makeup and styling. Makeup may smudge, and your hair will be wet or loose afterward.

Results depend on your scalp, health and home care. Pregnant, epileptic or have a pacemaker? Please tell me.

Neck note: a sharp backward tilt at a shampoo bowl has rarely been linked to stroke. Tell me if you feel dizzy or numb.

Please initial each statement

	Initials
I've read the effects above and had my questions answered. No result or regrowth was promised.	
My health information is true and complete, including allergies, medicines and neck problems.	
I understand this is cosmetic, not medical care, and my specialist does not diagnose.	
I'll speak up right away about burning, pain, dizziness, numbness or neck discomfort.	
No service goes over sores, infection, lice or sunburn; my visit may be changed or rescheduled.	
I'll follow aftercare and contact you, and a healthcare provider, if a reaction or new symptom appears.	
I [do / do not] agree to scalp camera images for my records only; other use needs photo consent.	
I release [Your Business Name] from claims from details I withheld or aftercare I skipped, per [State] law.	
I am 18 or older (or my guardian signs below), not under the influence, and signing of my own free will.

CLIENT RECORD · PRODUCT SENSITIVITY

Sensitivity & Patch Test Record

YOUR LOGO

CLIENT NAME | PHONE | DATE STARTED

KNOWN ALLERGIES | DERMATOLOGIST · CLINIC

WHY PRODUCT SENSITIVITY MATTERS

Fragrance, essential oils, nut oils (almond, argan) and botanicals are common causes of skin reactions, even to familiar products. Patch test new products behind the ear and check at 24 and 48 hours. **A patch test lowers risk but can't rule out a reaction;** formal allergy testing is done by a dermatologist.

Screening questions

Question			Details: where, when, what happened
Ever reacted to a shampoo, hair dye, oil or skin product?	☐ Yes	☐ No	
Allergic to fragrance, essential oils or botanicals?	☐ Yes	☐ No	
Nut allergy, or reacted to almond, argan or other nut oils?	☐ Yes	☐ No	
Eczema, psoriasis or a diagnosed contact allergy?	☐ Yes	☐ No	

Patch test log

DEPOSIT · BOOKING · HEALTH · CANCELLATION

Booking & Studio Policy

YOUR LOGO

Your appointment is reserved just for you, and a full head spa ritual can take [60–120] minutes. These policies keep things fair for every client and keep your visit calm and unhurried.

DEPOSIT
[$25] or [30]%
To book any service. Non-refundable; applied to your total.

NOTICE TO CHANGE
[24] hours
To move your appointment and keep your deposit.

GRACE PERIOD
[10] minutes
After that, your service may be shortened.

Rescheduling	With [24] hours' notice, your deposit moves once. A second change needs a new deposit.
No-show & late change	Your deposit is forfeited. After [2] no-shows, a full prepayment is needed to book.
Late arrival	After [10] minutes your service may be shortened so the next client starts on time, at the full price.
Health changes	Tell us before your visit about new medicines, diagnoses, pregnancy, or neck or scalp problems. Some services may change or need your doctor's OK.
Lice or infection	Head lice, ringworm, impetigo or open sores on the scalp? We'll reschedule with no fee [your policy].
Chemical services	Allow [72] hours between color or other chemical services and exfoliation, steam or high frequency.
Licensed services	Shampooing and blow-drying are offered only where our license allows. All care is cosmetic, not medical.
Come prepared	Skip heavy styling products and hair accessories. Hair may be damp afterward.
Gift cards & packages	Valid for [12] months from purchase and non-transferable [your policy].
Children & guests	Under 18? A parent or guardian signs and stays on site. Please ask before bringing guests.
Refunds	Services can't be refunded once performed. Tell us within [48] hours if something isn't right.

CARD ON FILE FOR DEPOSITS AND FEES, CHARGED ONLY AS DESCRIBED ABOVE

☐ Card saved in [booking system] ☐ I prefer to prepay Never write card numbers on this form.

My deposit is non-refundable, and arriving late may shorten my service at the full price. ☐

I'll tell you about health changes, and reschedule if I have lice or a contagious scalp condition. ☐

By signing, I confirm I've read and agree to this policy, including the non-refundable deposit and health rules.

INFORMED CONSENT

Head Spa Ritual Consent

YOUR LOGO

CLIENT NAME _____ SPECIALIST _____ DATE _____

WHAT IT IS
Microscope scalp analysis, double cleanse, massage, mask and a warm water cascade.

WHAT TO EXPECT
About [60–90] minutes lying back, neck supported. Pressure is set to you and never painful.

HOW LONG RESULTS LAST
A fresh, light scalp for several days. Many clients rebook every [2–4] weeks. Results vary.

TODAY'S SERVICE ☐ Full ritual ☐ Analysis only ☐ Add steam ☐ Neck & shoulders ☐ Blow-dry

POSSIBLE EFFECTS

- Light tingling or warmth from products or massage
- Extra shedding of hairs that were already loose
- Lightheadedness when you sit up after lying back
- Water or product reaching the eyes or ears
- Mild redness for a few hours afterward
- Product reaction: itching, redness or rash
- Tender neck or scalp muscles for a day
- Color fade if hair was colored very recently

Quick health and scalp check

- Head lice, ringworm or sores
- Scalp surgery or transplant
- Neck or spine problems
- High blood pressure or heart
- Psoriasis, eczema or dermatitis
- Color or chemicals in [72] h
- Dizziness, vertigo or past stroke
- Allergy: fragrance, oils, nuts
- Sunburned or broken scalp
- Botox or fillers in [2] weeks
- Migraine or frequent headaches
- Pregnant or breastfeeding

☐ **None of these apply to me** or list any that do: _____

About lying back. Your neck rests on a padded support or a flat head spa bed, never tilted sharply back. Feel dizzy, see spots or feel numbness? Tell me; we stop and sit you up slowly. Sudden severe headache, slurred speech or face drooping: we call 911.

☐ Extra neck support
☐ Standard is fine

Please initial each statement

	Initials
I've shared my full health, medication and allergy history, including neck problems and recent hair services.	
I understand the possible effects above. This is relaxing cosmetic care, not a medical treatment.	
I'll speak up right away if water feels too hot, pressure too firm, or I feel dizzy or unwell.	
My specialist doesn't diagnose scalp conditions and may suggest I see a dermatologist.	
Results depend on my scalp, hair and home care. No hair growth result is promised.	
Blow-drying is offered only if my specialist's license allows it where we are.	
Scalp images are part of my private record. Social media use only with my separate OK.	
Fees follow [Your Business Name] policy, including deposits, late arrival and cancellation.	

By signing, I confirm I am 18 or older (or have parent or guardian consent per [your policy and local law]), have read this form, had my questions answered, and consent to the head spa service I checked above.

CLIENT SIGNATURE _____ DATE _____ SPECIALIST · LICENSE # _____ DATE _____

PRACTITIONER PROTOCOL

Signature Head Spa Ritual

Check which license covers shampooing, scalp massage and blow-drying where you work.

SCREEN

Intake cleared. No lice, ringworm, open sores or infection. Recent color, chemicals or Botox noted.

NECK CHECK

Ask about neck or spine problems, vertigo, past stroke or dizziness at a shampoo bowl. Adjust.

PRE-SERVICE

Photo consent signed. Jewelry and clips off, hair detangled. Pressure preference noted.

SET UP FIRST ☐ Bed disinfected ☐ Neck rest padded ☐ Fresh towels ☐ Probe cleaned ☐ Steamer filled ☐ Products decanted ☐ SDS on hand

#	STEP	TIME	HOW
1	**Consult & images**	10 min	Review intake. Microscope [50–200]x on [4–6] zones; show the client.
2	**Position**	2 min	Padded neck rest or flat bed. Neck neutral; no sharp backward tilt.
3	**Water check**	1 min	Test on your inner wrist: lukewarm, [95–104°F]. Ask the client too.
4	**Double cleanse**	10 min	First wash lifts oil and buildup; rinse. Second wash cleans the scalp itself.
5	**Scalp massage**	15–20 min	Fingertip pads, never nails. Check pressure at the start and again midway.
6	**Steam [optional]**	5–10 min	Distilled water, nozzle at the maker's distance, never toward face or eyes.
7	**Conditioning mask**	5–10 min	Mask chosen for scalp type. Rest under a warm towel; keep checking in.
8	**Water cascade**	5–10 min	Gentle, steady flow across the scalp. Rinse fully; shield eyes and ears.
9	**Towel dry**	3 min	Press and blot, no rubbing. Bring the client up slowly; pause seated.
10	**After images**	3 min	Same zones, light and zoom as before. Compare with the client.
11	**Finish**	5–15 min	Blow-dry only if your license allows it; otherwise towel or air dry.
12	**Aftercare & rebook**	5 min	Review aftercare and card. Rebook in [2–4] weeks.

ENDPOINT AND SAFETY

- Neck supported and neutral at every step
- Pressure as the client chose; fingertips only
- Water lukewarm; re-test after any change
- Product fully rinsed; client up slowly

Positioning: stop if the client feels dizzy, sees spots or feels numbness. Sit them up slowly and stay with them. Sudden severe headache, slurred speech, facial droop or weakness: call 911.

IF SOMETHING GOES WRONG

- Dizzy: stop, support the head, sit up slowly.
- Hives or burning: stop, cool rinse, refer.
- Lice or sores: stop, refer, disinfect all items.
- Water too hot: move the flow away, cool rinse.
- Product in the eye: flush with eyewash 15 min.
- Steam burn: cool the area; blisters, see a doctor.

Always write an incident report and check in with the client within 24 to 48 hours.

AFTERCARE

After Your Head Spa Ritual

Your scalp is cleansed, rinsed and calm. A few easy habits keep it feeling fresh, light and balanced until your next visit.

YOUR LOGO

WHEN	WHAT'S NORMAL	DO	AVOID
Today fresh and light	Scalp feels light and clean. Slight pinkness or tingling for a few hours.	Rest and sip water if you like. Sit or stand up slowly if you feel lightheaded.	Heavy styling products, tight hairstyles and hot tools close to the scalp.
Days 1–2 settling in	A few extra hairs at your next wash. They were already loose and ready to shed.	Gentle shampoo and lukewarm water. Brush gently, working up from the ends.	Color or chemical services, very hot showers, saunas and scratching.
Weeks 1–2 enjoy it	Less buildup and a scalp that feels balanced between washes.	Wear a hat or scalp sunscreen outdoors. Keep up your home routine.	Harsh scrubs, piled-on dry shampoo and leaving sweat in after workouts.
Next visit in [2–4] weeks	Oil and buildup return gradually. That's your scalp's natural rhythm.	Book your next ritual. Tell me about new medications, allergies or hair services.	Waiting until itching or flaking builds up before your next cleanse.

GOOD TO KNOW

- Head spa is relaxing care, not a medical treatment
- Massage can leave your neck a little tender for a day
- Use fingertips, not nails, when you shampoo
- Scalp care works best as a regular routine
- Your part and crown burn easily; cover them in the sun
- Wait [48] h before color to keep your scalp calm
- Blot with a soft towel instead of rubbing
- Persistent itch, flakes or hair loss: see a dermatologist

Go gentle
Lukewarm water and a mild shampoo.

Fingertips only
Massage, don't scratch.

Cover up
Hat or scalp SPF outdoors.

Rebook
Every [2–4] weeks feels best.

CALL ME RIGHT AWAY IF YOU NOTICE

- Burning, stinging or itching that won't settle
- Blisters, or a rash that spreads
- Hives, a rash or swelling on scalp, face or neck
- Dizziness or a new headache that doesn't ease

Sudden severe headache, slurred speech, face drooping or one-sided weakness: call 911.

PRODUCTS USED TODAY

SHAMPOO TO USE AT HOME

YOUR NEXT VISIT DATE

CLIENT FORM · INFORMED CONSENT

Scalp Exfoliation Consent

YOUR LOGO

CLIENT NAME _____ SPECIALIST _____ DATE _____

WHAT IT IS
A deep cleanse that lifts flakes, oil and buildup with a scrub, enzyme or clay suited to your scalp.

WHAT TO EXPECT
About [45–75] minutes with gentle pressure and a thorough rinse. Tingling is normal; pain is not.

HOW LONG RESULTS LAST
A fresher, clearer scalp for about [1–2] weeks. Most clients repeat every [2–4] weeks.

TODAY'S SERVICE ☐ Fine scrub ☐ Enzyme ☐ Clay mask ☐ Patch test ☐ Add massage ☐ Add steam

POSSIBLE EFFECTS

- Tingling or warmth while the product works
- Dryness or tightness for a day or two
- Stinging if skin is more sensitive than expected
- Fine flaking as the scalp settles, usually brief
- Redness for a few hours afterward
- Product reaction: itching, rash or swelling
- Extra shedding of hairs that were already loose
- Color fade if hair was colored recently

About timing and patch tests. We never exfoliate broken, sunburned or inflamed skin, or within [72] hours of color, lightening, perms, relaxers or keratin. New products are patch tested first. Initials _____

Quick health and scalp check

- Head lice, ringworm or sores
- Sunburned or peeling scalp
- Scalp surgery or transplant
- Allergy: fragrance, botanicals
- Psoriasis or eczema flare
- Cuts, scratches or broken skin
- Retinoid or acne medication
- Neck problems or dizziness
- Seborrheic dermatitis flare
- Color or chemicals in [72] h
- Past reaction to scalp products
- Pregnant or breastfeeding

☐ **None of these apply to me** or list any that do: _____

Please initial each statement

	Initials
I've shared my full health, medication and allergy history, including recent color or chemical services.	
I understand the possible effects above. Exfoliation is cosmetic care, not a medical treatment.	
I'll speak up right away if anything burns, stings strongly or feels too firm, or I feel unwell.	
I agree to a patch test for new products. My service may be changed or rescheduled if needed.	
My specialist doesn't diagnose scalp conditions and may suggest I see a dermatologist.	
I'll follow my aftercare, including no color or chemical services for [48] hours.	
Scalp images are part of my private record. Social media use only with my separate OK.	
Fees follow [Your Business Name] policy. Results vary, and no hair growth result is promised.	

By signing, I confirm I am 18 or older (or have parent or guardian consent per [your policy and local law]), have read this form, had my questions answered, and consent to scalp exfoliation with [product name].

CLIENT SIGNATURE _____ DATE _____ SPECIALIST · LICENSE # _____ DATE _____

PRACTITIONER PROTOCOL

Exfoliation & Deep Cleanse

Contact times in [brackets] follow your product maker. Check your state board rules.

SCREEN

Intake cleared. No lice, ringworm, sores, sunburn or inflamed patches. Retinoids reviewed.

CHEMICAL CHECK

No color, lightening, perm, relaxer or keratin in [72] h. If unsure, cleanse only.

PATCH TEST

New products tested [24–48] h ahead, or behind the ear today. Result and lot noted.

SET UP FIRST ☐ Bed disinfected ☐ Neck rest padded ☐ Fresh towels ☐ Gloves if needed ☐ Probe cleaned ☐ Timer ready ☐ Products decanted ☐ SDS on hand

#	STEP	TIME	HOW
1	**Consult & images**	10 min	Microscope on [4–6] zones. Choose scrub, enzyme or clay by scalp type.
2	**Position & water**	3 min	Neck supported and neutral. Lukewarm water, tested on your inner wrist.
3	**Pre-cleanse**	5 min	Gentle shampoo lifts surface oil and product. Rinse and blot.
4	**Section & check**	3 min	Part into [4–6] sections. Skip any cut, sore, red or flaking patch.
5	**Apply exfoliant**	3–5 min	Scrub, enzyme or clay along the parts. Keep it away from the eyes.
6	**Work gently**	5–10 min	Light circles with fingertip pads; never nails or hard scrubbing.
7	**Contact time**	[5–10] min	Per maker. Check the skin often; remove early if it stings or burns.
8	**Rinse thoroughly**	5 min	Lukewarm, gentle flow until no grit or residue is left at the roots.
9	**Soothe & condition**	5 min	Light soothing conditioner or tonic. Blot dry; client sits up slowly.
10	**Images & aftercare**	5 min	After images, same zones. Review aftercare and card; rebook [2–4] wk.

ENDPOINT AND SAFETY

- Even, light pressure; skin pink at most, never raw
- Broken, sunburned or inflamed areas skipped
- No grit or residue left at the roots
- Neck supported; client up slowly after

Mild chemical exfoliants only if you're trained and your license allows. Never exfoliate within [72] h of chemical services or during a psoriasis, eczema or dermatitis flare.

IF SOMETHING GOES WRONG

- Strong stinging or burning: rinse with cool water at once and stop. Note product and lot.
- Product in the eye: flush with eyewash for 15 minutes, then seek medical care.
- Dizzy at the bowl: stop, support the head, sit up slowly. Stroke signs: call 911.
- Hives, swelling or spreading rash: stop, rinse, refer. Face or throat swelling: call 911.
- Scratch or bleeding: stop, clean gauze, no product on broken skin. Discard single-use items.
- Lice, sores or infection found: stop, refer, and disinfect everything used.

Always write an incident report and check in with the client within 24 to 48 hours.

AFTERCARE

After Your Scalp Exfoliation

Your scalp has had a deep cleanse, so it may feel a little more sensitive for a day or two. These easy habits keep it calm and comfortable.

YOUR LOGO

WHEN	WHAT'S NORMAL	DO	AVOID
Today fresh skin	Light tingling, slight redness or warmth for a few hours afterward.	Leave your scalp product-free. Sit or stand up slowly if you feel lightheaded.	Heavy styling products, dry shampoo, hot tools and scratching.
Days 1–2 be gentle	A little dryness, tightness or fine flaking as your scalp settles.	Gentle shampoo [your pick] and lukewarm water. Pat dry; brush softly.	Color, lightening, perms, relaxers or keratin. Scrubs, saunas and hot tubs.
Week 1 clear and clean	Less buildup, cleaner roots and hair that feels lighter.	Scalp sunscreen or a hat outdoors; freshly exfoliated skin burns faster.	Home scrubs or exfoliating shampoos, unless I suggested one for you.
Next visit in [2–4] weeks	Buildup returns slowly. Regular cleanses keep it in check.	Book your next session. Tell me about new medications or hair services.	Booking color or chemical services right before your appointment.

GOOD TO KNOW

- Wait at least [48] h before color or chemicals
- Feeling dry? A light scalp serum [your pick] helps
- Swimming? Rinse out chlorine or salt water soon after
- Results vary; this is cosmetic care, not medical
- Your part and crown burn easily; cover them in the sun
- Use fingertips, not nails, when you wash
- Over-exfoliating irritates; less is more
- Persistent itch, redness or hair loss: see a dermatologist

Go gentle
Mild shampoo, lukewarm water.

Skip color
No chemical services for [48] h.

Sun smart
Hat or scalp SPF outdoors.

Hands off
No scratching or picking flakes.

CALL ME RIGHT AWAY IF YOU NOTICE

- Burning or stinging that doesn't settle
- Blisters, oozing or crusting
- Hives, a rash or swelling on scalp, face or neck
- Redness that spreads or lasts past [48] h

Pain, heat, pus or a fever: see your doctor. Swelling of the face or throat, or trouble breathing: call 911.

Steam & Hydration Consent

YOUR LOGO

CLIENT NAME _____ SPECIALIST _____ DATE _____

WHAT IT IS
A scalp facial: a gentle cleanse, warm steam to soften buildup, then a hydrating mask.

WHAT TO EXPECT
About [60–75] minutes on a padded bed. The steam feels warm and misty, never hot.

HOW LONG IT LASTS
Your scalp and hair feel softer for a few days. Visits every [4] weeks help keep things balanced.

POSSIBLE RISKS AND SIDE EFFECTS

- Warmth, flushing or brief light-headedness from heat
- Temporary redness or tingling on the scalp
- Neck or shoulder discomfort from lying back
- Fresh hair color may fade slightly with heat
- Burn or scald if steam is too close or too hot
- Reaction to the mask, conditioner or fragrance
- Rarely, dizziness when lying back at the bowl
- Breakouts along the hairline from rich products

This is a relaxing cosmetic service. It does not diagnose or treat scalp conditions or hair loss, and results vary.

Quick health and scalp check

- High blood pressure
- Heat sensitivity or fainting
- Neck or spine problems
- Sores, rash or sunburn
- Color or perm in [72] hours
- Heart condition
- Asthma or breathing issues
- Dizziness or vertigo
- Psoriasis or dermatitis
- Botox or fillers in [2] weeks
- Pregnant or breastfeeding
- Migraine or headaches
- Scalp surgery or transplant
- Head lice or scalp infection
- Fragrance or botanical allergy

☐ **None of these apply to me** or list any that do: _____

Please initial each statement

	Initials
I've shared my full health history honestly, including blood pressure, heart, pregnancy and allergies.	
I understand the risks above. This is a cosmetic service, not medical treatment, and results vary.	
I'll tell my specialist right away if the steam feels too hot, or if I feel dizzy, faint or unwell.	
I'll speak up about any neck or shoulder discomfort so my position can be adjusted.	
My specialist doesn't diagnose scalp conditions and may suggest I see a dermatologist.	
I'll follow my aftercare, including no hot tools, saunas or steam rooms for the rest of the day.	
Before and after scalp photos for my private record are OK. Social media use only with my separate OK.	
Fees follow [Your Business Name] policy, including deposits and [24–48] hour cancellation.	

By signing, I confirm I am 18 or older (or have parent or guardian consent per [your policy and local law]), have read this form, had my questions answered, and consent to the steam and hydration scalp facial checked above.

CLIENT SIGNATURE _____ DATE _____ SPECIALIST · LICENSE # _____ DATE _____

PRACTITIONER PROTOCOL

Steam & Hydration Scalp Facial

Follow your steamer maker's instructions and state board rules. Check which license covers shampooing and blow-drying.

SCREEN

Intake cleared. No lice, infection, open sores or sunburn on the scalp. Defer and refer if found.

HEAT CHECK

High blood pressure, heart condition, pregnancy or heat sensitivity: skip steam.

PRE-SERVICE

Ask about neck problems and dizziness. Color or perm in [72] hours: go gentle.

SET UP FIRST ☐ Hands washed ☐ Fresh towels, cape, neck strip ☐ Bed and bowl disinfected ☐ Steamer filled with distilled water ☐ Neck support in place ☐ Mask and products decanted

#	STEP	TIME	HOW
1	**Screen & consent**	5 min	Review health changes; confirm consent; ask about the neck.
2	**Position**	2 min	Padded neck support, neutral neck, no sharp backward tilt.
3	**Scalp analysis**	5 min	Look at oil, flakes and redness. Photos of the same zones.
4	**Cleanse**	5–10 min	Lukewarm [95–104°F], tested on your wrist. Gentle shampoo.
5	**Steam**	5–10 min	Nozzle at maker's distance; never toward the face or eyes.
6	**Comfort check**	Ongoing	Ask about heat often. Too warm: move nozzle back or stop.
7	**Hydrating mask**	10–15 min	Apply in sections to scalp and lengths; warm towel wrap.
8	**Rinse**	5 min	Lukewarm, gentle pressure. Keep water out of eyes and ears.
9	**Condition**	5 min	Conditioner on mid-lengths and ends; rinse or leave in.
10	**Sit up & finish**	5 min	Sit up slowly; check for dizziness. Towel dry. After photos.
11	**Aftercare & rebook**	5 min	Review the sheet and card. Suggest next visit in [4] weeks.

ENDPOINT AND SAFETY

· Scalp soft and calm; only mild pinkness that fades
· Distilled water only; steamer emptied after each day
· Steam never aimed at the face, eyes or ears
· Descale weekly, or as often as the maker says

IF SOMETHING GOES WRONG

· Client feels hot, faint or dizzy: stop steam, sit up slowly, offer water, rest.
· Steamer spits hot water: turn it off, move it away, check the skin. Descale before reuse.
· Steam or product in the eye: flush with cool clean water for 15 minutes; seek care if sore.
· Burn or scald: cool running water for 20 minutes. No ice, butter or creams; seek care if it blisters.
· Redness, itching or hives from the mask: rinse off, cool compress, note the product.
· Numbness, vision spots, slurred speech or facial droop: sit up slowly and call 911.

Always write an incident report and check in with the client within 24 to 48 hours.

AFTERCARE

Caring for Your Hydrated Scalp

Warm steam and a hydrating mask leave your scalp softer and your hair more conditioned. A few gentle habits over the next few days help that fresh, balanced feeling last.

YOUR LOGO

WHEN	WHAT'S NORMAL	DO	AVOID
Today rest of the day	Your scalp feels soft and a little warm. Light pinkness fades within a few hours.	Air-dry or use a cool setting. Relax, and sip water if you like.	Hot tools, saunas, steam rooms, hot tubs and hard workouts.
Days 1–2 settling	Hair feels softer. A few already-loose hairs shed at your next wash.	Gentle shampoo and lukewarm water. Brush slowly with a soft brush.	Heavy styling products. Color or chemical services for [48] hours.
Days 3–7 everyday care	Your scalp settles back into its usual oil balance.	Wear a hat or scalp sunscreen in strong sun. Keep washes gentle.	Very hot showers on your scalp. Scratching with your nails.
Next visit every [4] weeks	Buildup and dryness slowly return between visits.	Book your next steam facial and tell me about any changes.	Waiting too long if your scalp feels tight or itchy.

GOOD TO KNOW

- Steam softens buildup; it isn't a detox
- Lukewarm water is kindest to your scalp
- Light-headed? Sit down and sip some water
- Heat can fade fresh color a little
- Some shedding at your next wash is normal
- I'll refer you to a dermatologist if needed

Keep it cool
Air-dry or a cool setting today. No hot tools.

Go gentle
Soft brush, mild shampoo, lukewarm water.

Cover up
A hat or scalp sunscreen in strong sun.

Stay on track
Visits every [4] weeks keep it balanced.

CALL ME RIGHT AWAY IF YOU NOTICE

- Burning, blistering or a sore spot on your scalp
- Redness, itching or a rash that spreads
- Hives or swelling at your hairline or face
- Dizziness or a new headache that doesn't settle

For a burn, run cool water over it for 20 minutes, then call me. Severe headache, facial droop, slurred speech or trouble breathing: call 911.

Hot Oil & Massage Consent

YOUR LOGO

CLIENT NAME _____ SPECIALIST _____ DATE _____

WHAT IT IS
Warm oil massaged into your scalp, then a neck and shoulder massage. Aromatherapy or fragrance-free.

WHAT TO EXPECT
About [45–60] minutes. Oil rests under a warm towel [10–20] minutes, then is rinsed out.

HOW LONG IT LASTS
Hair feels softer for a few days. Many clients book every [2–4] weeks to keep it that way.

TODAY'S SERVICE ☐ Hot oil scalp treatment ☐ Neck & shoulders ☐ Shampoo out ☐ Take home in hair

POSSIBLE RISKS AND SIDE EFFECTS

- Allergy to a nut, seed or botanical oil
- A burn if oil is too hot (it is always tested first)
- Hair feels heavy or oily until it is washed
- Oil can stain clothing, towels or pillowcases
- Irritation or a rash from essential oils
- Muscle soreness after massage, usually gone in a day
- Breakouts along the hairline or neck
- Light-headedness when you sit up

Quick health and scalp check

- Nut or seed oil allergy
- Neck, back or shoulder injury
- High blood pressure or heart
- Head lice or scalp infection
- Fragrance or essential oil allergy
- Dizziness, vertigo or past stroke
- Sores, rash or sunburn
- Botox or fillers in [2] weeks
- Pregnant or breastfeeding
- Migraine or headaches
- Psoriasis or dermatitis
- Blood thinners or bruise easily

☐ **None of these apply to me** or list any that do: _____

About your oils. Almond, coconut and argan come from nuts, so tell me about any nut allergy. Oils are decanted just for you, and essential oils are diluted to [1–2%].

☐ Aromatherapy blend
☐ Fragrance-free

Please initial each statement

	Initials
I've shared my full health history honestly, including any nut, seed, fragrance or essential oil allergy.	
I understand the risks above. This is a relaxing cosmetic service, not medical treatment.	
I'll tell my specialist right away if the oil feels too hot, or if anything itches, stings or burns.	
I'll speak up about massage pressure and any neck or shoulder discomfort at any time.	
If I take oil home in my hair, I'll wash it out within [24] hours. Oil can stain fabric.	
I'll follow my aftercare, including staying out of strong sun while oil is on my scalp.	
Before and after scalp photos for my private record are OK. Social media use only with my separate OK.	
Fees follow [Your Business Name] policy, including deposits and [24–48] hour cancellation.	

By signing, I confirm I am 18 or older (or have parent or guardian consent per [your policy and local law]), have read this form, had my questions answered, and consent to the hot oil and scalp massage service I checked above.

CLIENT SIGNATURE _____ DATE _____ SPECIALIST · LICENSE # _____ DATE _____

PRACTITIONER PROTOCOL

Hot Oil & Scalp Massage

Follow each oil maker's instructions and your state board rules on scalp massage and shampooing.

SCREEN

Intake cleared. No lice, infection, open sores or sunburn on the scalp. Defer and refer if found.

ALLERGY CHECK

Ask about nut, seed, fragrance and essential oil allergies. If unsure: nut-free, unscented.

PRE-SERVICE

Ask about neck, back or shoulder problems and pregnancy. Agree on pressure and the oil blend.

SET UP FIRST ☐ Hands washed ☐ Fresh towels, cape, neck strip ☐ Bed and bowl disinfected ☐ Oil decanted, no double-dipping ☐ Essential oils diluted [1–2%] ☐ Towels warming, neck support in place

#	STEP	TIME	HOW
1	**Screen & consent**	5 min	Review health changes and allergies; confirm signed consent.
2	**Position**	2 min	Padded neck support, neutral neck, no sharp backward tilt.
3	**Warm & test oil**	2 min	Warm per maker; test on your inner wrist. Warm, never hot.
4	**Choose blend**	2 min	Oils at [1–2%] or fragrance-free; let the client smell it.
5	**Apply oil**	5 min	Section the hair; apply oil to the scalp with fingertips.
6	**Scalp massage**	10–15 min	Fingertip pads, slow circles, no nails. Check pressure often.
7	**Neck & shoulders**	10 min	Long strokes; no pressure on the front or sides of the neck.
8	**Warm towel rest**	10–20 min	Wrap in a warm, not hot, towel. Check comfort; dim lights.
9	**Shampoo out**	5–10 min	Lukewarm water, wrist-tested; shampoo twice. Or take home.
10	**Sit up & finish**	5 min	Sit up slowly; check for dizziness. Towel dry, comb gently.
11	**Aftercare & rebook**	5 min	Review sheet and card. Suggest next visit in [2–4] weeks.

ENDPOINT AND SAFETY

- Oil warm, never hot; tested on your wrist every time
- Leftover decanted oil discarded, never poured back
- No pressure on the front or sides of the neck
- Oily towels washed well, never left piled warm

IF SOMETHING GOES WRONG

- Oil too hot or a red spot: stop. Cool running water for 20 minutes; refer if it blisters.
- Lip, face or throat swelling or wheezing: stop and call 911. Client uses their own epinephrine.
- Pain, tingling or numbness during massage: stop, ease off and reposition.
- Itching, rash or hives: wash the oil out with mild shampoo, cool compress, note the oil.
- Oil in the eye: flush with cool clean water for 15 minutes; seek care if it stays sore.
- Dizziness, vision spots, slurred speech or facial droop: sit up slowly; call 911 for stroke signs.

Always write an incident report and check in with the client within 24 to 48 hours.

AFTERCARE

After Your Hot Oil Treatment

Warm oil and massage leave your scalp nourished and your shoulders relaxed. Here's what to expect over the next day or two, and how to keep your scalp comfortable.

YOUR LOGO

WHEN	WHAT'S NORMAL	DO	AVOID
Today just after	Hair may feel heavy or oily. Shoulders may feel loose or a little tender.	Rest, and sip water if you like. Sit and stand up slowly after lying back.	Strong sun on an oiled scalp. Hot tools on oily hair.
If left in take-home oil	Hair looks darker and slick until it is washed.	Wash it out within [24] hours. Put an old towel on your pillow.	Your best pillowcase. Styling products on top of the oil.
First wash days 1–2	You may need two shampoos to lift the oil. A few loose hairs shed.	Lukewarm water. Shampoo the scalp twice; condition the ends only.	Very hot water or rough towel-drying.
Next visit every [2–4] weeks	Dryness and tension slowly return between sessions.	Book your next treatment and tell me about any reactions.	Trying new oils at home without a patch test.

GOOD TO KNOW

- Heavy hair for a day is normal and washes out
- Warm oil softens and conditions; it isn't a detox
- Found a nut or fragrance allergy later? Tell me
- Oil can stain fabric; a dark top or scarf helps
- Light soreness after massage usually fades in a day
- Ongoing itching or flaking: see a dermatologist

Wash within [24] h
Took oil home? Shampoo it out by tomorrow.

Shade your scalp
A hat or shade while oil is on your scalp.

Protect fabric
An old towel on your pillow tonight.

Go slow
Sit up and stand slowly after lying back.

CALL ME RIGHT AWAY IF YOU NOTICE

- Itching, hives or a rash on your scalp, face or neck
- Swelling around your hairline, eyes or lips
- Burning, a blister or a sore red spot
- Neck pain, dizziness or a headache that won't settle

Swelling of the lips, face or throat, or trouble breathing: call 911. A rash that spreads or lasts: see your doctor or a dermatologist.

High-Frequency Scalp Consent

YOUR LOGO

CLIENT NAME _____ SPECIALIST _____ DATE _____

WHAT IT IS
A glass comb or rake electrode glides over your scalp, giving a gentle, low-level electrical current.

WHAT TO EXPECT
About [5–10] minutes of light tingling and buzzing. A fresh ozone smell is normal.

HOW LONG IT LASTS
Your scalp may feel fresh and clean for a few days. Often booked every [1–4] weeks.

TODAY'S SERVICE ☐ High frequency ☐ Add-on to ritual ☐ Violet / argon ☐ Orange / neon ☐ Other: [ ]

POSSIBLE EFFECTS AND RISKS

- Tingling, buzzing or a light snapping sound
- Mild pinkness or warmth for a few hours
- Brief headache or tension in some people
- Irritation if skin is broken or inflamed
- Small sparks if the electrode lifts off the skin
- Dryness, especially on a dry or sensitive scalp
- Burn risk with flammable products in the hair
- Results vary. Hair regrowth is not promised.

Pacemaker, metal implants in head/neck, epilepsy or pregnancy? High frequency isn't safe for you. I'll gladly offer a scalp massage or LED session instead.

☐ Doesn't apply to me
☐ Not eligible today

Quick health and scalp check

- Pacemaker or implanted device
- Heart condition
- Cuts, sores or scratches
- Botox or fillers in 2 weeks
- Migraines
- Metal plates, pins or shunts
- High blood pressure
- Scalp infection or lice
- Recent scalp surgery
- Hairspray or alcohol product today
- Epilepsy or seizures
- Pregnant
- Psoriasis or dermatitis flare
- Color or chemicals in 72 hrs
- Metal piercings or clips

☐ **None of these apply to me** or list any that do: _____

Please initial each statement

	Initials
I've shared my full health history honestly, including implants, devices and medications.	
I have no hairspray, dry shampoo or alcohol-based product on my scalp or hair today.	
I've removed my jewelry, hair clips and pins, and I'll keep my hands off metal surfaces.	
I understand tingling, buzzing and an ozone smell are normal, and the setting starts low.	
I'll speak up right away if anything stings, feels hot, or I feel dizzy or unwell.	
I understand this is a cosmetic service. It doesn't diagnose or treat hair loss or disease.	
Before and after scalp photos for my private record are OK. Social media use only with my separate OK.	
Deposits and fees follow [Your Business Name] policy. I'll tell you about any health changes.	

By signing, I confirm I am 18 or older (or have parent or guardian consent per [your policy and local law]), have read this form, had my questions answered, and consent to a high-frequency scalp treatment and the services checked above.

CLIENT SIGNATURE _____ DATE _____ SPECIALIST · LICENSE # _____ DATE _____

PRACTITIONER PROTOCOL

High-Frequency Scalp Care

Settings and times in [brackets] follow your device maker and the client's scalp. Check your state board rules.

SCREEN
No pacemaker or implant, metal in head/neck, epilepsy, pregnancy or heart condition.

CHECK
No broken skin, infection or lice. No Botox nearby in [2] weeks. Odd spots: dermatologist.

PRE-SERVICE
No hairspray, dry shampoo or alcohol-based tonic on hair. Jewelry, clips and pins removed.

SET UP FIRST ☐ Electrode inspected, no cracks ☐ Electrode disinfected, logged ☐ Cord and unit checked ☐ Dial at lowest setting ☐ No flammables at station ☐ Fresh towel, neck support

#	STEP	TIME	HOW
1	**Consult & screen**	5 min	Confirm health changes, implants and medicines. Consent signed.
2	**Scalp check & photos**	3 min	Part hair in good light. Before photos of the same zones.
3	**Prepare hair**	[ ] min	Clean, dry hair and scalp. Brush out tangles. No product left in the hair.
4	**Position client**	2 min	Seated or on the bed, neck supported and neutral. Hands off metal.
5	**Insert electrode**	1 min	Comb or rake into the handle with the unit off. Push in firmly.
6	**Contact, then on**	1 min	Rest electrode on the scalp first, then switch on at the lowest setting.
7	**Treat the scalp**	5–10 min	Slow strokes front to back, section by section. Never hold still.
8	**Adjust & check in**	ongoing	Raise only to comfortable tingling. Ask how it feels every minute or two.
9	**Off, then lift**	1 min	Turn the dial down and off before lifting the electrode away.
10	**Finish & aftercare**	5 min	Serum if planned. Sit client up slowly. Review sheet and card.
11	**Clean & rebook**	3 min	Electrode to cleaning, station wiped, log signed. Book in [1–4] weeks.

ELECTRODE CARE

Clean and disinfect per the device maker; let dry fully

Every client
Unit off. Wipe clean, disinfect the glass, air dry.

End of day
Wipe the handle and cord. Store electrodes covered.

Inspect
Cracked, chipped or loose glass? Retire it today.

Log it
Date, time and initials for every clean. Keep [ ] years.

Endpoint: even, comfortable coverage of the scalp, light pinkness at most, no hot spots or sparking. **Safety:** start low, keep the electrode moving and in contact, and nothing flammable nearby.

IF SOMETHING GOES WRONG

- Sparking or stinging: lower the setting, keep contact.
- Dizzy, unwell or headache: stop, sit up slowly.
- Smell of burning hair: stop, check for product.
- Hot spot or burn: stop, cool water compress.
- Glass cracks: unit off, remove, discard safely.
- Seizure or fainting: protect head, call 911.

Blistering or a burn that worsens: refer to a physician. Write an incident report.

AFTERCARE

After High Frequency

Your scalp may feel fresh, clean and lightly tingly. Here's what to expect and how to care for your scalp until your next visit.

YOUR LOGO

WHEN	WHAT'S NORMAL	DO	AVOID
Today first hours	Light tingling, warmth or slight pinkness for a few hours. A faint ozone smell in your hair.	Leave your scalp product-free if you can. Brush gently with a soft brush.	Heavy styling products, hairspray and dry shampoo. Scratching your scalp.
Days 1–2 settling in	Scalp feels clean and calm. A dry or sensitive scalp may feel a little tight.	Gentle shampoo, lukewarm water. A light, fragrance-free scalp serum if dry.	Hot tools on the roots, very hot showers, and color or chemical services.
Week 1 everyday care	Oil and buildup slowly return to your usual rhythm.	Wash as often as your scalp needs. Hat or scalp sunscreen outdoors.	Harsh scrubs, picking at flakes, and tight styles that pull at the roots.
1–4 weeks next visit	Results are gradual and vary from person to person.	Book your next visit. Tell me about any new implant, pregnancy or medicine.	Home high-frequency wands without guidance, especially with product in your hair.

GOOD TO KNOW

- The ozone smell fades by your next wash
- Arrive next time with clean, product-free hair
- Drink water if you like; it's for comfort, not detox
- Ongoing itching or flaking? See a dermatologist
- A few loose hairs at the next wash are normal
- Leave jewelry and hair clips at home next visit
- This is a cosmetic service; regrowth isn't promised
- A new or changing scalp spot should be checked

Go gentle
Soft brush, light hands, no scratching.

Keep it light
Skip heavy products today.

Lukewarm
Cooler water is kinder to your scalp.

Wait on color
Give it [24–48] hours first.

CALL ME RIGHT AWAY IF YOU NOTICE

- Burning, blisters or a sore spot on your scalp
- Hives, swelling or an itchy rash
- Redness that lasts beyond a day or spreads
- Dizziness or a headache that doesn't settle

Blistering or a burn that worsens: please see a doctor. Sudden severe headache, slurred speech, facial droop or weakness: call 911.

YOUR NEXT VISIT

INFORMED CONSENT

LED Light Scalp Consent

YOUR LOGO

CLIENT NAME _____ SPECIALIST _____ DATE _____

WHAT IT IS
Low-level red (about 630–660 nm) or blue (about 415 nm) light on a clean scalp, per [your device].

WHAT TO EXPECT
About [10–20] minutes of relaxing, painless light. You'll wear eye protection throughout.

HOW LONG IT LASTS
Light works best as a series: [8–12] sessions, [1–2] times a week, per [your policy].

POSSIBLE EFFECTS AND RISKS

- Gentle warmth on the scalp during the session
- Eye strain or glare without eye protection
- Redness if on a light-sensitizing medicine
- Results vary from person to person
- Mild pinkness or tightness for a few hours
- Brief headache in light-sensitive people
- Dryness, especially on a dry or sensitive scalp
- Hair regrowth is not promised

A 2022 review of 7 trials found light therapy raised hair density in pattern hair loss vs sham devices.

Quick health and scalp check

- Light-triggered epilepsy
- Antibiotics (some types)
- Other light-sensitizing medicine
- Skin cancer history
- Open sores or scalp infection
- Light-triggered migraine
- Retinoids, oral or topical
- Lupus or light sensitivity
- New or changing scalp spot
- Psoriasis or dermatitis flare
- Pregnant
- St John's wort
- Eye condition or recent eye surgery
- Sunburned scalp
- Using a home light device

☐ **None of these apply to me** or list any that do: _____

TODAY'S SERVICE ☐ Red light ☐ Blue light ☐ Add-on to ritual ☐ Series: session [ ] of [ ]

Please initial each statement

	Initials
I've shared my full health history honestly, including every medicine and supplement I take.	
I'll keep the eye protection on for the whole session and won't look directly at the light.	
I understand this is a cosmetic service. Results vary and hair regrowth is not promised.	
I'll speak up right away if I feel heat, discomfort, a headache, or the light bothers me.	
If a scalp spot looks unusual, I'll be asked to see a dermatologist. No diagnosis is given here.	
I'll tell you before each session if I start a new medicine, become pregnant or my health changes.	
Deposits, series and package fees follow [Your Business Name] policy.	
Before and after scalp photos for my private record are OK. Social media use only with my separate OK.

PRACTITIONER PROTOCOL

LED Light Scalp Therapy

Follow your device maker's settings, distance and times. Check your state board rules.

SCREEN

Intake cleared. No light-triggered epilepsy or migraine, lupus or light sensitivity.

CHECK

Medicines: some antibiotics, retinoids, St John's wort. Suspicious spot: refer to a dermatologist.

PRE-SERVICE

Clean scalp, no heavy oils or styling product. Pregnancy per [your policy].

SET UP FIRST ☐ Hands washed ☐ Device and cords checked ☐ Panel or cap disinfected ☐ Goggles for client and you ☐ Wavelength and timer set ☐ Fresh towel, neck support

#	STEP	TIME	HOW
1	**Consult & screen**	5 min	Confirm health changes and every new medicine or supplement.
2	**Consent & photos**	3 min	Consent signed. Before photos of the same zones. Note session # in series.
3	**Scalp check**	3 min	Part hair in good light. Look for sores, sunburn or a new or changing spot.
4	**Cleanse**	[ ] min	Clean, product-free scalp. Towel or blow dry per your license.
5	**Part & position**	2 min	Part hair in sections to expose the scalp. Neck supported and neutral.
6	**Eye protection**	1 min	Goggles on the client before the light goes on. Yours too.
7	**Place device**	1 min	Panel or cap at the maker's distance. Red ~630–660 nm, blue ~415 nm.
8	**Light session**	10–20 min	Start the timer. Stay nearby and check comfort and warmth.
9	**Off & inspect**	2 min	Light off before goggles come off. Check the scalp for redness.
10	**Finish**	3 min	Light serum if planned. Sit client up slowly.
11	**Aftercare & rebook**	5 min	Review sheet and card. Book the next session in the series.

ENDPOINT AND SAFETY

- Full timed session, client comfortable, no burning
- Never promise regrowth; results vary by person
- Eyes protected the whole time the light is on
- Disinfect panel, cap and goggles after every client

IF SOMETHING GOES WRONG

- Too warm: increase distance or stop; cool compress.
- Rash or hives: stop, ask about new medicines.
- Device fault or flicker: unplug, tag out of use.
- Headache or eye strain: light off, rest, note it.
- Dizzy or unwell: light off, sit up slowly, water.
- Seizure: protect the head, time it, call 911.

Reaction that spreads or doesn't settle: refer to a physician. Write an incident report.

AFTERCARE

After LED Light Therapy

Light therapy is gentle and there's no downtime. A few simple habits help your scalp between sessions in your series.

YOUR LOGO

WHEN	WHAT'S NORMAL	DO	AVOID
Today first hours	Gentle warmth or slight pinkness for an hour or two. Most people notice nothing.	Carry on as usual. Hat or scalp sunscreen if you're outdoors.	Long sun exposure on your scalp, tanning beds and very hot showers.
Between sessions	No visible change yet. Light works slowly over a series.	Gentle shampoo, lukewarm water. Keep your scalp clean and product-light.	Skipping sessions. New medicines you haven't mentioned.
Mid-series sessions [4–8]	Some notice a healthier-feeling scalp; others, little change.	Compare photos with me. Brush gently and keep up your scalp routine.	Harsh scrubs, tight styles that pull at roots, and scratching your scalp.
Series end review	Results vary from person to person. Regrowth isn't promised.	Review photos together and plan upkeep sessions per [your policy].	Expecting quick results. Ongoing hair loss needs a dermatologist.

The evidence

A 2022 review of 7 trials found light therapy raised hair density in pattern hair loss vs sham devices. Results vary, so regrowth isn't promised.

GOOD TO KNOW

- Red light is about 630–660 nm, blue about 415 nm
- Arrive with clean, product-free hair each time
- Home devices vary; ask me before adding one
- Some antibiotics and retinoids raise light sensitivity
- St John's wort can also raise light sensitivity
- A new or changing scalp spot should be checked

Stay steady

Regular sessions matter more than any one.

Shade it

A hat or scalp sunscreen outdoors.

Tell me first

New medicine or pregnancy.

Be gentle

Soft brush, lukewarm water, no scratching.

CALL ME RIGHT AWAY IF YOU NOTICE

- Burning, blisters or a rash on your scalp
- Eye pain or vision changes after a session
- Redness that lasts beyond a day or spreads
- A headache or migraine that doesn't settle

Blisters, hives or a spreading rash: please see your doctor.

Eye pain or changes in your vision: see a doctor the same day.

GETTING READY

Before Your Head Spa

For every head spa and scalp treatment. A little prep keeps you comfortable and helps us get the most from your visit.

YOUR LOGO

NAME

APPOINTMENT DATE & TIME

SERVICE

1 week
before

Planning color or a perm? Leave [72] hours between any chemical service and your visit.

Hair extensions? Tell me when you book. [Your extensions policy.]

Booking LED? List medicines that make you light-sensitive (some antibiotics, retinoids, St John's wort).

Neck problems, vertigo or dizziness at a shampoo bowl? Tell me first.

48 hours
before

Skip heavy styling products, dry shampoo and hair oils so your scalp shows clearly.

No scrubs or exfoliants at home, and try not to scratch.

Booking high frequency? No hairspray or alcohol-based products on the day.

Check your scalp for sunburn, sores or anything new.

Day of
your appointment

Come with dry hair, washed or unwashed, as you like.

Wear comfortable clothes with a loose neckline.

Remove earrings and hair clips before we start, or leave them home.

Light makeup or none is best; it may smudge.

Scalp analysis

· A small camera shows your scalp up close on screen.

· I photograph the same [4–6] zones to track progress.

· Images stay private, shared only with your consent.

· We talk through what we see. It's not a diagnosis.

Lying back

· You rest on a [head spa bed / padded bowl] with your neck supported.

· Tell me right away if your neck strains or you feel dizzy.

· I sit you up slowly at the end.

· Too warm or cool? Just say.

After your visit

· Hair may be damp or oily; bring a hat or hair tie.

· Makeup near your hairline may smudge.

· Allow [60–90] minutes in total.

· Plan a calm, unhurried hour after.

PLEASE TEXT TO RESCHEDULE IF YOU HAVE

· Head lice or nits

· Open sores, cuts or a sunburned scalp

· A color or chemical service in the last [72] hours

· Ringworm or a scaly, itchy patch

· A fever, cold or flu, or feel unwell

· A psoriasis or eczema flare (tell me first)

I ask for [24] hours' notice. If it's about your health or safety, just text. We'll find a new time together.

Important

Pregnant? It's not an automatic no. I'll adjust your position for comfort, keep essential oils minimal and skip high frequency [and LED, per policy]. High blood pressure or a heart condition? I'll keep heat and steam gentle. Tell me and we'll plan together.

NOTES FOR YOU

AFTERCARE · SCALP GUIDE

Your Scalp Care Guide

A calm, healthy scalp is the base for healthy-looking hair. Here's how to care for it between visits, how long results last and when to call me.

YOUR LOGO

Daily routine

Wash, rinse, massage

GENTLE SHAMPOO
Every [1–3] days, or as often as your scalp type needs.

LUKEWARM WATER
Hot water dries and irritates. Rinse until the water runs clear.

FINGERTIP MASSAGE
[2–3] minutes with your fingertips, never your nails.

BRUSH GENTLY
A soft or wide-tooth brush, working from ends to roots.

Protect

Sun, tension & heat

SUN
A hat or scalp sunscreen, especially along your part.

LOOSE STYLES
Tight ponytails, braids and buns pull on roots. Vary your style.

HEAT
Use a heat protectant and a lower setting; keep tools moving.

HANDS OFF
Try not to scratch or pick at flakes; it inflames the scalp.

How long it lasts

With good home care

HEAD SPA RITUAL
Your scalp feels fresh for about [3–7] days.

EXFOLIATION
Buildup stays clear for about [2–4] weeks.

STEAM · HOT OIL
Hydration lasts about [1–2] weeks.

HIGH FREQUENCY · LED
Best as a series of [6–8] visits, [1–2] weeks apart.

FIRST 24 HOURS
No heavy styling products; no color or chemicals for [24–48] h.

BUILDUP
A clarifying shampoo [weekly / monthly] clears residue.

RESULTS VARY
No head spa service treats hair loss or regrows hair.

Rebook on time

Every [4–6] weeks keeps things balanced.

Track progress

We compare camera images at each visit.

Healthy scalp

Calm, even color, little flaking, no itch.

Ask first

Trying a new product? Text me first.

THIS IS NORMAL

- Light tingling or warmth for a few hours
- Slight redness that fades the same day
- Extra shedding of already-loose hairs at a wash
- Hair a little heavy or oily for a day after oil
- Feeling relaxed, sleepy or a little lightheaded
- Mild dryness for a day or two after exfoliation

CALL ME OR SEE A DERMATOLOGIST

- Burning, blisters, hives, swelling or a spreading rash
- Persistent itching with redness, or scaly patches
- Sores, crusting or tender bumps that don't heal
- Sudden or patchy hair loss
- Bumps or moles that bleed, grow or change
- Dizziness or a new headache that doesn't settle

Call 911 for trouble breathing, a swollen face or throat, slurred speech or sudden weakness.

Product in your eye? Flush with water for 15 minutes, then get **urgent care**.

I care for your scalp, but I don't diagnose. Hair loss or a scalp that won't settle needs a dermatologist.

NOTES

PRACTITIONER REFERENCE

Scalp Conditions Cheat Sheet

Know what you're looking at, when to go gentle and when to refer.

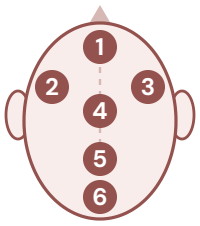

Scalp types & conditions

CONDITION	WHAT YOU MAY SEE (SCOPE OR EYE)	HEAD SPA
Dry	Fine white flakes, tightness, dull lengths	OK
Oily	Shine, clumped strands, oil pooling at follicles	OK
Buildup	Waxy film or plugs around follicles	OK
Sensitive	Pinkness, quick flushing, stings with products	**Gentle only**
Dandruff	Small white flakes, mild itch, no redness	OK
Seborrheic dermatitis	Greasy yellow scale with redness, often hairline	**Gentle only**
Psoriasis	Thick silvery plaques with sharp edges	**Gentle only**
Folliculitis	Red or pus-filled bumps around follicles	**Refer**
Tinea capitis (ringworm)	Round scaly patches, broken hairs, black dots	**Refer**
Head lice	Nits glued near the root, live lice, scratching	**Refer**
Traction alopecia	Thinning at hairline or temples from tight styles	**Gentle only**
Pattern thinning	Widening part or thin crown; finer hairs	OK, suggest derm
Alopecia areata	Smooth, round bald patches	**Refer**

Product types

PRODUCT TYPE	BEST FOR	AVOID IF
Carbonated (CO2)	Oily scalp, buildup, a fresh deep cleanse	Broken or very dry skin
Clay	Oily scalp, heavy buildup, odor	Dry, flaky or sensitive scalp
Enzyme or fine scrub	Buildup, dry flakes, before a mask	Inflamed, sunburned; chemical <[72] h
Oil	Dry, tight scalp; massage; loosening flakes	Seborrheic flare; nut allergy (check oil)
Cream or mask	Dry or sensitive scalp, after exfoliation	Fragrance allergy; fine oily hair

Microscope zones

1 Front hairline
2 Left temple
3 Right temple
4 Part or top
5 Crown
6 Nape

Look for: oil, flakes or buildup, redness, follicle openings, hair density and diameter, breakage.

Every time: [50–200]x, same zones before and after; client sees images; stored privately.

POSITIONING

- **Neck supported** and neutral; no sharp tilt.
- Ask about neck problems, vertigo, past stroke.
- Dizzy, seeing spots, numb: stop; sit up slowly.
- Severe headache, slurred speech, droop: 911.

WATER & HEAT

- **Wrist test** the water every time.
- Lukewarm [95–104°F] for the scalp.
- Cascade at gentle pressure, away from eyes.
- Steam: distilled water, maker's distance.

Specialists don't diagnose. Refer to a dermatologist when in doubt. Never promise regrowth.

PRACTITIONER REFERENCE

Head Spa Contraindication Chart

A quick screen, not a diagnosis. When in doubt, don't start and ask for written medical clearance.

[1] Contagious. Reschedule; disinfect tools and bed.
[2] Contagious or infected. No service; refer.
[3] Wait until healed; no product on broken skin.
[4] No friction or heat; suggest a dermatologist.
[5] Fragrance-free and gentle; skip heavy oils.
[6] Wait until healed; then sunscreen or a hat.
[7] Surgeon OK in writing, often [6–12] months.
[8] Color-safe products; no exfoliation for [72] h.
[9] No pressure near injections [24 h–2 wk].
[10] Flat bed or neck support; no backward tilt.
[11] Doctor OK first; flat bed, neutral neck.
[12] Ask about triggers: scent, heat, light, pressure.
[13] Limit heat and steam; HF needs doctor OK.
[14] No high frequency. Check the LED maker's advice.
[15] No high frequency near metal implants.
[16] No high frequency; no flashing LED modes.
[17] Side support, minimal essential oils [policy].
[18] Retinoids thin skin; some drugs react to light.
[19] Fragrance-free products; no aromatherapy.
[20] Nut-free oils, scrubs and masks; read labels.
[21] Parent or guardian consent required [policy].

Conservative defaults; check your state board rules. Device and product makers, state rules and the client's doctor come first. Dizziness, numbness or vision changes at the bowl: stop and sit the client up slowly.

AFTERCARE

Signature Head Spa Ritual

First 48 hours

your scalp is settling

DO

· Gentle shampoo, lukewarm water
· Brush gently, up from the ends
· Hat or scalp SPF in the sun
· Stand up slowly if lightheaded

AVOID

· Color or chemicals for [48] h
· Heavy styling products today
· Scratching or harsh scrubs
· Very hot showers and saunas

Rebook every **[2–4] weeks** to keep your scalp balanced. **Next visit:** [date]

CALL ME IF

Burning, hives, rash or swelling · dizziness or a headache that won't ease. Slurred speech, face droop or one-sided weakness: call 911.

Questions? Text [Phone] [Your Business Name]

AFTERCARE

Scalp Exfoliation

First 48 hours

your scalp is extra fresh

DO

· Gentle shampoo, lukewarm water
· Leave your scalp product-free today
· Hat or scalp SPF outdoors
· Pat dry and brush softly

AVOID

· Color or chemicals for [48] h
· Heavy products and dry shampoo
· Home scrubs or scratching
· Saunas and hot tubs for a day

Repeat every **[2–4] weeks**; tingling fades in hours. **Next visit:** [date]

CALL ME IF

Burning, hives, blisters or swelling · redness that spreads or lasts past [48] h. Face or throat swelling, trouble breathing: call 911.

Questions? Text [Phone] [Your Business Name]

Aftercare cards · 4 × 6 in · cut along the dotted lines

AFTERCARE

Steam Scalp Facial

Today

soft and warm is normal

DO

· Air-dry or use a cool setting
· Lukewarm water, gentle shampoo
· Brush slowly with a soft brush
· Hat or scalp sunscreen in sun
· Rebook every [4] weeks

AVOID

· Hot tools for the rest of today
· Saunas, steam rooms, hot tubs
· Heavy styling products
· Color or chemicals for [48] hours
· Scratching your scalp

Next steam facial in [4] weeks: _____

CALL ME IF

Burning, blisters or a sore spot · a spreading rash · dizziness or a lasting headache. **911** for facial droop, slurred speech or trouble breathing.

Questions? Text [Phone] [Your Business Name]

AFTERCARE

Hot Oil & Scalp Massage

Today

heavy hair is normal

DO

· Wash oil out within [24] hours
· Shampoo twice, lukewarm water
· Old towel on your pillow tonight
· Sit up and stand slowly

AVOID

· Strong sun with oil on your scalp
· Hot tools on oily hair
· Styling products over the oil
· New oils without a patch test

Left oil in? Wash it out within **[24] hours**.
Next visit: [date]

CALL ME IF
