before

Tell me about changes: new medications, an injury, surgery or pregnancy.

Fill in your intake form ahead of time if I've sent one.

New tattoo, Botox or fillers? Let me know so we can work around those areas.

Think about what you'd like: areas to focus on, areas to skip, pressure.

Day before
your session

Hydrate well. Water helps you feel comfortable on the table.

Skip alcohol the day before and the day of your session.

Sensitive skin? Avoid shaving or waxing right before; oil can sting fresh skin.

Go easy on the sun; sunburned skin can't be massaged.

Day of
your appointment

Eat lightly about 1 hour before, not a big meal.

Arrive 10 minutes early to settle in and update your health form.

Use the restroom first, and leave jewelry at home.

Skip heavy perfume; scents linger in the room for others.

I ask for [24] hours' notice. If it's about your health or safety, just text. We'll find a new time together.

What to expect

You'll undress to your comfort level in private and rest under a sheet. Only the area being worked is uncovered. I'll check in on pressure, and you can speak up, stay clothed or stop at any time.
