SERVICE

1 week
before

Wearing gel, acrylic or dip? Book a removal with your service, or soak off safely at home.

Start cuticle oil daily. Healthy cuticles give a cleaner, longer-lasting finish.

Skip cutting or filing your nails short; I'll shape them.

Ever had itching or a rash from nail products? Tell me before you book.

48 hours
before

Pedicure: don't shave, wax or use hair removal cream on your legs for [24–48] hours.

Don't pick, peel or bite old product; it pulls off layers of your nail.

Check your hands and feet for cuts, redness or anything new.

Day of
your appointment

Come with clean, bare nails, or with your removal booked.

Skip hand cream and oil that day, or wash it off first. Product won't stick to oily nails.

Bring inspiration photos for shape, length and art.

Wear open-toe shoes for a pedicure.

· Extensions and dip too: come with bare nails, or book removal time.

· Length or design changes on the day may change time and price.

· Fills every [2–4] weeks keep them strong.

· SPF or UV gloves are available for lamp curing.

· Reschedule with cuts, scratches, bug bites or foot fungus.

· Diabetes or poor circulation? Tell me first.

· Tell me about ingrown or painful toenails.

· Gel toes: bring open-toe shoes.

Manicure & nail art

· Nail art is priced by design; photos help me quote.

· Please don't cut your cuticles at home first.

· Tell me about thin, peeling or damaged nails.

Important

Pregnant? It's not an automatic no. Some nail products have strong odors; I use ventilation at my table, and if odors bother you, a natural manicure or regular polish is a lovely option. It's your choice, so tell me and we'll plan together.
